

Trēo™ 700w
SMARTPHONE

Unify. Simplify.

Palm's world-class ease of use, now on Windows Mobile®.

The Palm® Treo™ 700w smartphone delivers everything you need without compromise. It combines a smarter phone with broadband-like speeds¹ and rich-media capabilities, all in one—bringing Palm's world-class ease of use to the Windows Mobile® platform. Connect with people in multiple ways—by voice, email, SMS, or MMS². Your contacts are always reachable, from any application. Access email, the web, and corporate networks on one of the fastest networks available in the U.S.^{1,2} Or relax and play your favorite music and videos right on your device. With this easy-to-use productivity device in hand, you can stay connected² on your terms.

Quick Facts

- Compact, all-in-one smartphone
- Palm's world-class usability
- Fast downloads on EvDO networks
- Microsoft® Windows Mobile® 5.0
- Wireless email and web²
- Integrated organizer functionality
- Supports Microsoft® Office Word, Excel, PowerPoint, and Outlook Mobile applications
- 128MB memory³
- 1.3 megapixel digital camera
- Windows Media® Player Mobile for music and video
- Built-in Bluetooth® wireless technology
- Microsoft® ActiveSync® 4.1 software
- Voice Command for voice dialing

Other Features and Benefits

Do it from the Today screen. Look up a contact, dial their number, set up photo speed dial, view your calendar, and even search the web.²

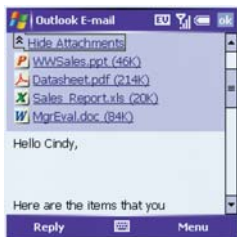

Dial by name. Start typing the name of the person you want to call and it instantly appears.

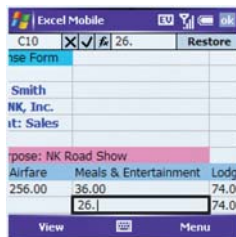

Ignore with SMS. If someone calls when you're busy, send the call to voicemail and automatically respond with a discreet SMS.²

Stay on top of all your voicemail accounts with a single set of on-screen controls.

Send and receive email from Microsoft® Outlook, Hotmail, Yahoo!, AOL, and other POP3 and IMAP accounts.^{2,4}

View, edit, and create Word and Excel Mobile files right on your smartphone.

Shoot crisp, clear digital images and capture video with the 1.3 megapixel camera.

See your daily appointments at a glance.

¹ Within EvDO data wireless service coverage area only. Actual data speeds vary based on network capacity and application design. Backwards compatible with 1xRTT and IS95 networks.
² Within wireless service coverage area only. Email, web, and messaging require data services from a mobile service provider at an additional cost. ISP and/or VPN may also be required.
³ 60MB actual storage capacity.
⁴ Supports access to 6 accounts including a Microsoft Outlook account plus 5 additional accounts. Access to corporate email accounts may require Microsoft® Exchange Server 2003.
